What Have We Been Doing?

Policy & Procedure: The last few months we have turned our attention toward the hard work of creating or rewriting policies and procedures. We have been working hard to improve both our administrative procedures and our day to day operating procedures. We are happy to report that we are about 90% done this process.

Website: We have made a number of changes to our website as well as uploaded our most recently completed documents including our job descriptions, staff applications and our internship information.

Timeline: We have set a strong timeline for tracking progress over the course of the next few months as we work hard and look forward to the re-launching of our ministry. Our focus at this time is on the completion of our

policy & procedures manual, hiring a program director, and securing ongoing funding.

We appreciate your prayers and support in this process as we forge ahead to new and greater things in the anticipation of reopening the doors of Living Hope Ranch.
